Express

MongoDb

## LANGUAGES

English

Full Professional Proficiency

Hindi

Full Professional Proficiency

## INTERESTS

Gym

Travelling

## EDUCATION

### BCA ( Bachelor of Computer Application)

Mohanlal Sukhadiya University(MLSU)

10/2021 - 10/2024

Udaipur, 7.59

## WORK EXPERIENCE

### Intern

#### Marvik Academy for Technical Education(MATE)

06/2024 - 07/2024

Udaipur, Rajasthan

Achievements/Tasks

- Developed and maintained full-stack web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- I organised the project following the MVC (Model-View-Controller) architecture, ensuring a clean and structured format.
- Designed RESTful APIs for an HR management system.
- Understood and Integrated MongoDB database solutions.
- Handled secure user access control by implementing JWT-based authentication.

## CERTIFICATES

### Civil-Military Liaison Programme (10/2024)

This recognition was awarded for successfully contributing to the automation of HR management processes within the army. Our team helped replace outdated systems with a modern HR management website, improving personnel management and operational efficiency.

## PROJECTS

### HR Management(Indian Army) (08/2024 - 10/2024)

- Created an HR management system tailored for army personnel, emphasising scalability and operational efficiency.
- Designed and managed the backend architecture, prioritising the handling of complex search queries for large datasets.
- Implemented secure user authentication and authorization mechanisms using JWT tokens to enhance security.

### Blog Website (01/2025 - 02/2025)

- Developed a fully functional blog platform with React for the frontend and Appwrite as the backend, handling authentication, database, and storage.
- Implemented Redux Toolkit for efficient state management and integrated react-hook-form for smooth and user-friendly form validation.
- Utilized react-router-dom for seamless navigation and incorporated @tinymce/tinymce-react to enable rich text editing for blog posts.

### Personal Portfolio (02/2025 - 02/2025)

- Link: <https://portfolio-green-eight-85.vercel.app/>
- Built a portfolio using React with a focus on reusable components for scalability.
- Integrated Framer Motion to enhance user experience with smooth animations and project transitions.
- Implemented smooth scrolling for seamless navigation between sections without page reloads.
